Not a Good Day to Miss a Period

It's [National Punctuation Day](#)! In honor of this highly anticipated national holiday, Seattlest will be utilizing every form of punctuation we know...ready? Punctuation is an integral part of our society; it is so often misused. You may be saying to yourself, "Self—seriously—why do you so frequently over-use punctuation?" We'd like to remind you that you're not alone. Everyone misuses it, places commas in the wrong place, and occasionally throws in a second or third exclamation point (as if that'll drive their point home more). Then there are the bastardizations of punctuation that have become so very common in our online world: the punctuation smileys. You know what we're talking about :P :) :S
